I'm a Full Stack Developer from Toronto.

I have more than 12 years of experience as a Front End Developer and 3+ years as a Full Stack Developer.

Experienced in several high-traffic projects from educational to real-time data management and social networks.

I specialize in all aspects of web development from basic HTML/CSS/JS coding to creating full-scale web applications with rich REST API(PHP/NodeJs).

My primary stack is Laravel+Vue but I have experience with WordPress, Opencart, Electron, React, NodeJs, Python, etc. Have good DevOps skills, and experience with all common databases such as MySQL, MongoDB, SQLite, etc. Using Git / GitLab / BitBucket, Jira, Slack, Linux/Mac/Windows daily.

A fast learner, problem solver, and team player, always seeking skill improvement and better practices.
