Slava Trofimov

Front End Developer | Full Stack Developer

Front End Developer with strong expertise in JavaScript, Vue, REST, and HTML5/SCSS. Bring a Full Stack skill set, having worked extensively with Laravel and PHP, contributing to numerous Laravel+Vue/Nuxt projects.

Proficient in React, WordPress, Opencart, and Electron.
Well-versed in essential development tools like Git and Docker and have experience with collaboration platforms such as Figma, Jira/ClickUp, and Slack.

Work History

2019-01 - Current

Senior Front End Developer

Codepxl, Toronto, ON
Front End and Full Stack development using Vue, Nuxt, Laravel, WordPress, jQuery, and Vanilla Javascript. Styling based on Figma designs with HTML5, CSS3 (SASS), and TailwindCSS/Bootstrap.

Single page and Progressive Web Applications development, project planning, structuring, maintaining legacy code, and mentoring.

2018-11 - 2019-11

Front End Developer

EQuoto, Toronto, ON
Worked on a wide variety of marketing websites based on Laravel and WordPress. Used Vue, React, Bootstrap and Tailwindcss.

2018-05 - 2018-12

Front End Developer

EvolutionInDesignZ, Toronto, ON
Worked on many different custom Laravel, WordPress and Opencart-based real-estate, educational, non-profit, large-data, and thin-client projects. Implemented Figma/Sketch designs into cross- platform accessible and SEO-friendly front-end code using HTML5/SASS, JavaScript, Vue, Laravel blade, jQuery, and Bootstrap.

2017-08 - 2018-05

Web Developer

Electrolight Ent., Toronto, ON
Developed and maintained custom corporate websites based on WordPress and Opencart using HTML5/CSS3, JavaScript, and jQuery. Integrated third-party APIs, converted mockups into UI, and improved SEO and web accessibility. Implemented content management and security resource tutorials to assist end-user training.
